

Fast-Kill® Refillable Bait Station

Instructions

* **Please note:** Apply gloves to ensure there is no contact with the bait block.

1. Hold the refillable bait station in one hand.
2. While squeezing the front and back tabs, lift the lock tab on the bottom of the bait station and pull open.
3. Take one bait block and slide it down the post holder as far as it will allow.
4. Press the station lid and bottom until they meet.
5. Continue to press firmly until you hear a click and the trap locks in place. This is when the station has been closed properly.
6. Place the trap where you have seen signs of rodent activity or along the wall where rodents primarily travel. The end of the trap with the entrance holes should be placed nearest the wall.
